## YOUNG LE SIEUR UNDER ARREST

### Captured in Provo by a Deputy.

Had Been Home but Two Days When the Marshal Caught Youth.

Wanted in St. Louis for Offense Growing Out of Opal Mines Sales.

The culmination of the famous Idaho opal fraud came in Provo yesterday afplaced under arrest by Chief Deputy Smyth of the United States Marshal's office. Young Le Sieur only returned to Provo a couple of days ago but the officials were apprised of his every movement, although they kept the matter very quiet. Quickly learning of his whereabouts, Mr. Smyth went to the Garden City yesterday, and after luncheon placed the young man under arrest under an indictment issued by Commissioner D. H. Twomey of this city dated July 19.

#### Lodged in Jail.

It was the Deputy's end duty to remove the prisoner from his own home, the official knowing full well that the boy was the support of his forsaken mother as well as his young wife. It was one of those pathetic duties that often fall to the lot of court officials. The prisoner came custody to this cit; and was lodged in the county jail. He will appear before Commissioner Twomey today, when he will answer to the indictment. He will not offer to give bonds, but an order for his re-moval to St. Louis will be made, and over to the Federal authorities to stand his trial

villagers soon got to recognize the black-robed woman, with bonnet and flowing strings, and gave her kindly greetings, which frequently passed unnoticed, Mrs. Maybrick seeking so far as possible to avoid the tention of the curious. Her time the convent was taken up by sewing, reading and chatting with the sisters, endearing berself to them by many acts showing that even the many years of servitude at Aylesbury prison had been unable to stamp out her innate kindly

and her case is one calling for the sympathy of all.

### Two Counts in Indictment. The indictment, consisting of two ounts, accuses the father and son with

Ellinor G. Seaman, of fraud and espe-cially using the United States mail for the furtherance of this frand. They got up a company, so the indictment reads, called the Le Sieur Opal Mining com-pany. It was to be organized under the aws of Arizona, and its property was said to consist of valuable opal mines n Lemhi county, Idaho. These mines, the charge continues, were of no value, and the parties tried to sell stock in them to certain persons in St. Louis, using the United States mails for their unlawful purposes. Miss Seaman was the secretary of the

company and is described as a dashing young person with high persuasive

St. Vrain Le Sieur himself is remembered as a man with every appearance of being a foreigner, in addition to his name. He was exceedingly jealous of his wife when he lived in Salt Lake, and much of their life in this city will be recalled by those who knew them, all, however, having nothing but words the highest praise to bestow

#### THOUSANDS SEEK HER HAND

Seventeen-Year-Old Heroine Has Many Offers of Marriage.

NEW YORK, July 20 -- Mary McCann, a G-year-old girl, who, although only three days out of the hospital at North ternoon when Sidney C. Le Sieur was Brother's Island, where she had been ill with scarlet fever, saved six persons from drowning after they had jumped from the burning steamer General Slocum, has appealed to the postal authorities on North Brothers island to help her with the enormous mail which arrives each morning. Since the testimony at the coroner's inquest established the fact that Miss McCann was a heroine, she has received more than 1000 letters containing an offer of marriage. There are offers from young men and old men, from bachelors and widowers. The girl refuses to consider the sentimentalities, however, and declares she will receive no more mail unless the offers cease. with scarlet fever, saved six persons from

## JOHN BULL IS ANGRY AT CZAR

### Strong Protest Made to Russia.

British Aroused Over Selzure in Red Sea of English Vessels.

General Protest Presented Against Action of Russian Volunteer Fleet of Steamers.

Associated Press has just been informed that Emperor Nicholas, in an interview with Count Lamsdorff, the foreign minister, expressed his displeasure at the turn events had taken and at the possibility of complications with Great Britain arising out of the detention of British ships by the Russian volunteer fleet steamers in the Red sea. This pacific attitude, if the report be correct, will doubtless lead to an immediate and amicable adjustment of the difficulties.

PETERSBURG, July 20.-Sir Charles Hardinge, the British Embassador to Russia, this afternoon in be half of his Government, presented strong protest to Russia against the scisure in the Red sea and the deten tion of the Peninsular & Orienta steamer Malacca, which was carrying 300 tons of British Government stores for the naval establishment at Hong kong, cases containing which were marked with the broad arrow, which is the Government stamp. The Embas sador also presented a general protest against the action of Russian volunteer fleet steamers in the Red sea

#### In Form of Verbal Note.

protest was in the form of cerbal note made in conformity with telegraphic instructions from the Brit-ish Government. It does not raise the question of the passage of the Dar-danelles, but over vessels of the volun-teer fleet, it being understood that Great Britain is reluctant to reopen the question of the Dardanelles and that she will not do so unless as a last re-

### What Russia Contends Russia has reason to believe and con-

tends that the Malacca, in addition to British Government stores, had on board munitions intended for Japan. Russia Seems Prepared.

Russia seems prepared for any repre entations Great Britain may make or the subject of stopping ships in the Red sen. It is understood that before sending the cruisers the Russian authorities became satisfied through an elaborate system of esplonage that an immense count of contraband was going from England through the Red sea to Japan and they decided to stop the traffic. It is understood that if this tracff is now diverted to the Cape route the Russian Admiralty is prepared to send ships to the Cape of Good Hope. If Great Britain objects to the passage of the Dardanelles by more vessels of the vol-unteer fleet, the ships intended for ruising off the Cape may be sent from

#### Position of Russia.

The Russ today publishes an editorial statement of Russia's position relative to the stopping of neutral ships in the Red sea by vessels of the volunteer fleet. There is great interest in the statement because it is believed to reflect directly the views of the Foreign Excitement in England. "The operations of the converted

culsers Smolensk and St. Petersburg are causing tremendous excitement in England. Questions are being asked in Parliament, the newspapers are appealing to the public, and there is a panic among ship owners. There also is a good deal of talk in Germany be-cause of the seizure of mails on the steamer Prinz Heinrich, but the most noise there is being made by extrem ist organs, the others treating the mat ter coolly. It is a pity the English do not display the same Teutonic calm-

#### Must Take Consequences.

"It is easy to understand that the British merchant marine feels these re-strictions severely. As a result of the stopping and searching of vessels English ships either must give up trans-porting contraband of war or run at their own risk and peril in time of war between two powers. Others are bound to suffer more or less, as it is impossible to check contraband traffic without search

#### Official Letters Contraband.

"In regard to the detention of the Prinz Heinrich's mails, details have not yet reached St. Petersburg. Compre hensive discussion of this incident is therefore, impossible. But, it must b But, it must be pointed out, the official correspondence of a belligerent is contraband. Conse quently if the Prinz Heinrich carried Japanese diplomatic and consular re-ports she was liable to seizure. Of ourse, whether she did or not, correspondence can be inspected to deter-mine this fact.

### MEAT CUTTERS' STRIKE SETTLED

### Whole Controversy Will Be Arbitrated.

Both Sides Agree to Abide by the Dscision of Arbitrators.

Pending Decision Old Men Will Be Taken Back to Work Rapidly as Possible

CHICAGO, July 20.-The strike of pack ng-house employees, begun nine days ago and which has demoralized the packing in dustry throughout the country, was settled here tonight at a conference between rep esentatives of the packers, the officials of the Meat Cutters' union and representatives of all the allied trades employed

at the stock yards. The whole controversy will be submit ed to a board of arbitration, both sides agreeing to abide by whatever decision this board may reach.

Pending the decision of the arbitration poard the men will be taken back to work so rapidly as possible by the packers, and it is agreed by the packers that all the old employees are to be reinstated within forty-five days from the date work is resumed, if any of the former employees are still unemployed at the expiration of that time such persons are to have the privilege of submitting their cases to the arbitration board for settlement.

#### Strikers Begin Work at Once.

The strikers will return to work as soon as they can be notified of the peaceable adjustment of the trouble, and it is expected that by Friday morning everything will be in normal shape at all the plants in the different cities where the employees

Half an hour after the decision had been reached tonight to arbitrate M. J. Every government has a right either to build warships and finally to convert merchant vessels into warships The volunteer fleet, at its very incep-tion, was intended to be converted into a military fleet upon the declaration of

#### No Protests Heretofore.

"The English should not feel incensed ver the passage of the St. Petersburg and Smolensk through the Dardanelles. The British embassy at Constantinople hands in a protest to the Turkish Gov-ernment every time a volunteer fleet vessel passes the straits. For many ears these protests have been entirey disregarded, and therefore, long ago ost their importance. Before the war the Dardanelles were repeatedly passed by volunteer ships on the way to the Far East, even with troops, arms and ammunition aboard. If this were pos-sible before the war, it is possible now, and there has been no change in our re lations with Turkey as a result of the war with Japan.

#### No Deception Claimed.

"When the St. Petersburg and Smo-lensk passed through the straits under the merchant flag their destination was correctly given as being the Far East. In fact, the vessels, upon entering the Red sea, armed and hoisted the mill-

### NO REASON FOR SEIZURE.

Action of Russia Only Serves to Inflame the British.

LONDON, July 20.-The further details received from Port Said today, describing the situation on board the steamer Maincea, fail to give any reason for the seizure and only serve to inflame the British feeling. The offi-cials of the company reiterate their depial that the Malacca was carrying contraband of war, and reassert that the explosives on board were British Government stores consigned to the naval commander at Hongkong.

In official circles apprehension is felt at the increasing excitement in the country. There is no likelihood, how-ever, of any precipitate action. It is officially pointed out that the very fullest information must be obtained be-fore the Government decides on its

#### Explanation Demanded.

In the meantime, and until there is direct and explicit evidence of travention of neutrality by the Malacca and the assumption by the Russian Government of full responsibility for the action of the commanders of the Smolensk and St. Petersburg, the British Government, it is explained, can only ask explanations of the Russian Fork and Payson. Some of the prominent speakers of the Capital city will also be in attendance. unteer fleet steamers into warships af- Foreign office regarding the nature of

Subsequent action necessarily will de-pend on Russia's reply thereto,

#### Policing Red Sea.

The talk of policing the Red sea by British warships meets with no sup-port in official quarters, where it is pointed out that the commander of a warship would have to satisfy himself warship would have to satisfy himself that a merchant ship desiring convoy was not contravening the neutrality regulations. If the commander was satisfied in this respect, there there would be no necessity for protecting the ship. If he did not receive satis-

the snip. If he did not receive satisfactory assurances he would have no right to convoy the vessel.

The editorials continue to be heated and it is openly suggested that Russia's action was premeditated. sia's action was premeditated.

The directors of the Peninsula & Oriental company at a meeting this afternoon decided to urge strongly on the Government the necessity for action in regard to the seizure of the Malacca. The Government has been definitely informed that the only explosives on the Malacca were stores shipped by the British Government to Honskope.

British Government to Hongkong.
It appears that the Smolensk and St Petersburg not only passed through the Dardanelles under the Russian commercial flag, but that they also went through the Suez canal under this flag on their outward voyage. The Malac-ca's passengers have been transferred to the steamer Marmora of the Penin-sular & Oriental line.

Administrations of McKinley and of Roosevelt Are Warmly Indorsed by All.

PROVO, July 21.-If the public of Utah experienced any trouble to-day ir purchasing postage stamps or securing letters it was owing to the fact that the stamp merchants were mostly in Provo. How they all got there on such short notice is a mystery. Moroni Lehi and Nephi were represented. Then there were many from intermediate places. It was the first annual con-
